CRAB FEED 2018 A SUCCESS!

Our annual Crab Feed brought together people from all across our community to support the Lancer Athletics programs. All proceeds from the Crab Feed go directly to the Booster Club to support and assist Kennedy Catholic with the financial requirements of athletic activities. Thanks to you, our Booster members, we were able to raise over \$13,000 from this fun event. Also, thank you to the many volunteers, staff and students who work so hard to make the event happen!

GIRLS LACROSSE TEAM ATTENDS UNIVERSITY OF OREGON CAMP

Thanks to the generous support of our Booster members, the Girl's Lacrosse team was able to attend the University of Oregon's camp. We received the below thank you from Emily L, one of the Lancer Athletes who attended. We wanted to share this wonderful thank you with all of you.

Thank you for making it possible for the girl's lacrosse team at Kennedy Catholic to go to the University of Oregon's lacrosse camp. I learned many new stick tricks at the camp and gained motivation to learn how to master the new stick work they showed us at the clinic. Furthermore, I am grateful for this experience because the team got to meet the three college coaches who coach the Ducks lacrosse team, two of which are on the US Women's National Lacrosse team and won the World Cup last summer. One of the coaches who is on the US National team is Michelle Tumolo, who I had the opportunity to have a personal conversation with about different types of sticks and how to improve as a player. Moreover, as a team, playing in the tournament allowed us to see what areas we need to improve. The team was able to ask the coach (a college player) about being a student-athlete and how to improve individually and as a team. It was interesting to learn more about lacrosse and college life through a student-athlete perspective, and hearing her experiences. Once again thank you so much for allowing the girl's lacrosse team to go to this camp. The team learned so much and gained exposure on how to improve and work better as a team.
